

SUGGESTED TIPS AND MAINTENANCE PROCEDURES

With decades of knowledge, we at Stone tile have seen every scenario with regards to the customer experience. We have taken the time to assemble a checklist to ensure the product delivery and after care is just as thorough as the capacity of the design and purchase for your home.

Inspect the condition of the boxes at delivery

Inspect Tile at point of delivery

Verify the quantity of tiles at delivery with your contractor

Inspect the colour and finish of the tiles in each box
before installation

Coordinate with your contractor that all mortars, grouts and
sealants are suitable for the material and area of install

Establish at point of delivery which materials are
designated in which areas of install
